Elastomerics

Volume 120-1988 — Numbers 1-12

Editor's Note: This year's index covers material from the January 1988 through December 1988 issues of Elastomerics. *Each entry is followed by the month and the page number of the issue in which it appears.*

Articles are listed individually. Each author is listed in the Author category, as well as individually.

The Trends subject heading includes industry news items that appeared in the magazine's previous format. Items in the New Products category in the previous format are listed under End Products.

Subject headings include Applications, Authors, Book Reviews, Chemicals and Materials, Editorial, End Products, Equipment, Euronews, Goodyear Tire and Rubber Co., Last Word, Literature, Meetings and Trends.
